## Partnerships

AIM is technology agnostic. We only partner with organizations that mirror our innovative spirit and add significant client value. Channel relationships help your team thrive in an evolving technology landscape.

## Collaborative Approach

Our clients are at a variety of different stages in their technology/business life-cycle. We work to meet you where you're at with a complementary approach to achieving success and moving the needle forward.

While our goal is to deliver results, we want to make sure that you and your teams are set for continued evolution.

In today's world, every company is a technology company. What sets us apart is our people, platform expertise, and processes that not only deliver continuous business results but create a system for success... long after our initial engagement.

## Sharing Industry Insights and Modern Practices

Our business model focuses on the core belief that great people do great work together. Our consultants have deep expertise in a variety of industries, platforms, methodologies, and processes. Our mission is to share these years of experience with your teams as we deliver.

## Our Capabilities

Explorers of knowledge, innovators through actions, and engineers focused on people above all else - we help companies launch their most ambitious initiatives.

- ▾ **Application Development**  
Modernizing applications through innovative cloud-based architectures and modern development processes.
- ▾ **Cloud & Operations**  
Designing high-performing, secure, compliant cloud platforms, and DevSecOps pipelines for greater scalability, stability, and efficiency.
- ▾ **Data & Analytics**  
Architecting modern, trustworthy data platforms to deliver actionable insights using machine learning and data science.
- ▾ **Delivery Leadership**  
Driving complex initiatives to deliver valuable outcomes. Improving business agility through delivery optimization.
- ▾ **Digital Experience & Mobile**  
Delivering digital transformation through beautiful and engaging consumer experiences across e-commerce, digital marketing, and content platforms.
